

# Friday, 13th February 2026

Room 110

14:00     **Gathering** (Room 109)

16:00     **Opening**

16:00–16:30   Helena Marciuš,  
                  *New topological semantics for interpretability logic*

16:30–17:00   **Siniša Miličić**, Nicoletta Saulig,  
                  *Noise, Novelty, and (Non)computability*

17:00–17:30   **Coffee break** (Room 109)

17:30–18:10   Zvonimir Šikić,  
                  *On Newcomb's problem*

# Saturday, 14th February 2026

Room 110

- 10:00–10:40 Ludovica Conti,  
*Weak Impredicativity and Grundgesetze*
- 10:40–11:10 **Branislav Vlahovic**, Slavica Mihaljevic Vlahovic, Gordana Vlahovic,  
*Relativizing Cardinality: Persistent Simultaneous Marking in  $M \models ZFC$  and Layered Diagonal Construction in Wang's  $\Sigma$ -model*
- 11:10–11:30 **Coffee break** (Room 109)
- 11:30–12:30 Ivan Tomašić,  
*Categorical logic in difference and differential algebra*
- 12:30–16:00 **Lunch break**
- 16:00–16:30 J. Albert Yoo,  
*Rescuing Quantum Logic from a Category Mistake: On the Historical Heterogeneity of Logic*
- 16:30–17:00 Teo Šestak,  
*A formal system of dialectics*
- 19:00 **Conference dinner**  
“Kod Pere” - Cvjetka Rubetića 25

# Sunday, 15th February 2026

Room 110

- 11:00–11:30 Zvonko Iljazović,  
*Computable approximations of semicomputable continua*
- 11:30–12:00 Michelangelo Bussotti,  
*Syntactic Purity in Sequent Systems*
- 12:00–16:00 **Lunch break**
- 16:00–16:30 **Sara L. Uckelman**, Benjamin Steer  
*“Bad grammar as well as bad logic”: Christine Ladd-Franklin on Bertrand Russell and his logic*
- 16:30–17:00 Lucija Brekalo Mandić,  
*Mathematical–Logical Approach to Structuring Anti-Money Laundering Risk Models: Conditional Logic in Transaction Monitoring System*
- 17:00–17:30 **Coffee break** (Room 109)
- 17:30–18:00 Tin Adlešić,  
*Zermelo’s Philosophy of Mathematics*
- 18:00–18:30 Ilgar Gapagov,  
*Is reality logical? Nietzsche contra Aristotle*

# Monday, 16th February 2026

Room 110

- 10:00–10:30 Zuzanna Rygiewicz,  
*Gentzen's Sequent Calculus and Beth Tableaux*
- 10:30–11:00 **Sebastijan Horvat**, Borja Sierra Miranda, Thomas Studer,  
*Advantages of the new sequent system for IL*
- 11:00–11:30 **Coffee break** (Room 109)
- 11:30–12:05 Vedran Čačić,  
*Teaching computers set theory*
- 12:05 **Closing**
